

DOOR SEALS & SWEEPS

SOLUTIONS FOR RESIDENTIAL DOORS

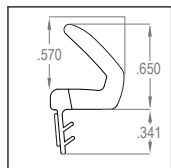

DOOR SEALS THAT IMPROVE INSTALLATION & PERFORMANCE

Cooper Standard Industrial and Specialty Group (ISG)'s door seals are constructed of EPDM sponge and dense materials with a rigid support for easy kerf insertion. All of our door seals feature a low-friction surface for minimal coefficient of friction and increased abrasion protection. Our standard reach seals can be applied continuously on the header, hinge and strike sides of the door.

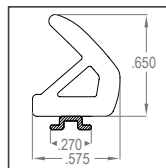

ADDITIONAL BENEFITS

- Closed-cell EPDM Sponge Will Not Absorb or Wick Water
- Excellent Weather, Ozone and UV Resistance
- High & Low Temperature Stable with Excellent Compression Set Properties
- AAMA 702-11 - Replaceable Fenestration Weatherseal Verified, Class A
